written by craig deegan australia s premier sustainability and social accounting academic an introduction to accounting accountability in organisations and society is the only resource in the market that brings corporate accountability sustainability and social responsibility together to provide a unique offering within the introductory accounting market this text takes a unique approach by embracing from the start the notion of accountability for the environment and sustainability in accounting

providing students with an understanding of accounting's pervasive and transformative role as a social practice and organisational driver it shows that environments ideas and values change the interconnectivity of society that the planet must be respected as a resource and that people are affected influenced by the information they receive and the way it is presented the text emphasises that accounting and accountability are key aspects of every person's life and that the practice of accounting while often being seen as very technical in nature has many social implications learning accounting through the lens of sustainability and the environment embeds this perspective in students minds so that in their careers they will actively seek and use accounting information to make decisions that take into consideration accountability for the environment premium online teaching and learning tools are available on the mindtap platform learn more about the online tools [au.cengage.com/mindtap](http://au.cengage.com/mindtap)

written by one of anz's premier sustainability and social accounting academics an introduction to accounting accountability in organisations and society brings today's accounting hot topics of corporate accountability sustainability and social responsibility to life with the only complete textbook created from the ground up for these modern accounting teaching and learning concepts an introduction to accounting accountability in organisations and society takes a unique approach in embracing from the start the notion of accountability for the environment and sustainability in accounting the structure content and learning activities provide students with an understanding of accounting's pervasive and transformative role as a social practice and organisational driver it shows that environments ideas and values change the interconnectivity of society that the planet must be respected as a resource and that people are affected influenced by the information they receive and the way it is presented it is emphasised that accounting and accountability are key aspects of every person's life and that the practice of accounting while often being seen as very technical in nature has many social implications learning accounting through the lens of sustainability and the environment embeds this perspective in students minds so that in their careers they will actively seek and use accounting information to make decisions that take into consideration accountability for the environment premium online teaching and learning tools are available on the mindtap platform learn more about the online tools [cengage.com.au/mindtap](http://cengage.com.au/mindtap)

an adaptation of mcgraw hill australia's financial accounting text australian financial accounting by craig deegan authored by anne marie ward of ulster university it communicates the detail necessary to understand challenge and critically evaluate

financial reporting

financial accounting and reporting an international approach is an adaptation of mcgraw hill australia s bestselling financial accounting text australian financial accounting by craig deegan authored by anne marie ward of ulster university set within an international context with a solid grounding in ias ifrs the book provides students with a detailed grasp of reporting requirements in an accessible and engaging manner up to date throughout and complete in theoretical and practical coverage the book successfully communicates the detail necessary to understand challenge and critically evaluate financial reporting the result gives students a strong foundation for current study and their future professional lives

this textbook provides a comprehensive guide to accounting theory and aims to improve the readers capacity to think critically about accounting and accounting challenges it is intended for accounting students who are enrolled in an accounting theory course as well as those who want to pursue postgraduate accounting studies namely a phd this textbook starts with an explanation of what accounting is followed by its history and conceptual framework before tying accounting to research subsequently seven theories of accounting are selected and introduced as the accounting research community has made substantial use of these theoretical frameworks in this textbook too applications of accounting theory to previous studies are provided

given the increased social and environmental problems in china this book looks into the social and environmental disclosure practices of socially responsible chinese listed firms by constructing a stakeholder driven three dimensional disclosure index the book contains a three part study the first part explores the current status of social and environment disclosure practices the second part empirically examines the relationship between corporate social and environmental disclosure and various influencing factors i e stakeholders power and corporate characteristics the third part empirically examines the link between corporate social responsibility csr reporting i e publishing a csr report and the quality of the csr report and socially responsible reputation the book finds that the csr report provided more stakeholder relevant social and environmental disclosure than the annual report it also finds that corporate characteristics such as firm size profitability and industry classification are all statistically significant factors influencing the social and environmental disclosure of the chinese firms studied shareholders significantly influenced firms social and environmental disclosure and creditors significantly influenced firms disclosure related

to their environmental performance the final part of the study reports that publishing a csr report and csr reporting quality had a positive influence on firms socially responsible reputations and that the ceo chairman duality negatively influenced firms socially responsible reputation this book will be of interest to those who are keen to learn more about corporate social responsibilities in the context of chinese firms

this exciting book is one of the first textbooks in the fast growing area of sustainability accounting contributed to and edited by an impressive array of internationally renowned authorities it focuses on the use of sustainability accounting both as an external accountability mechanism external reporting and as a tool for helping managers assess and manage the social and environmental impacts of their operations management accounting using real life examples and case studies to emphasize the links between the conceptual basis and issues in practice this outstanding book addresses the growing interest among both practitioners and academics in social environmental and ethical accountability as interpreted through the lens of sustainable development

in recent years corporate social responsibility csr reporting in china has been experiencing a rapid development and the number of social reports issued by chinese enterprises shows a sharp increasing trend this book investigates the evolution of such reporting practice in the country and the reasons behind it in addition it also examines the reporting quantity and quality of chinese enterprises by applying the gri global reporting initiative as an evaluation tool in response to policy documents so as to obtain the government s recognition and to strive for more resources state owned enterprises private enterprises and foreign invested companies have made substantial efforts in social reporting in terms of quantity and coverage however it appears that there is still room for enhancing the quality of disclosure the book also highlights the central government s economic political and social roles in promoting encouraging and controlling the development of csr reporting

new zealand financial accounting provides students with a comprehensive grounding in all aspects of financial accounting this popular market leading text provides a complete understanding of financial accounting with an engaging and accessible writing style this edition continues to offer students a detailed grasp of the theory and applications underlying financial accounting while challenging the reader to critically evaluate them

this book covers key discussions involving major us and european multinational companies mncs that source products from

suppliers in developing countries due to the transfer of production from developed to developing nations there is an urgent need to establish social compliance as a new form of corporate social responsibility csr and a means by which mncs can meet expected social standards the cases described are internationally relevant and can be seen to reflect or represent the behavior of many mncs and their suppliers in developing nations the discussion offers essential insights into how different levels of social compliance risk and pressure including broader stakeholder concerns move managers to adopt or embrace particular social compliance accounting reporting and auditing strategies the book will help readers to understand the major concerns challenges and dilemmas faced by management in the supply chains of mncs and proposes measures that can be taken to resolve those dilemmas most importantly it develops a systematic method of assessing the social compliance performance of suppliers to mncs this includes highly detailed accounts of the social compliance performance of suppliers within the clothing industry in a developing nation that supply goods to the extensive us and european markets the book offers a valuable guide not only for corporate managers but also for practitioners researchers academics and undergraduate and postgraduate business students

this book explores recent developments in the theory strategic perspective and international practice of corporate social responsibility in particular it discusses the consequences of the economic slowdown apparent in many economies and the impact of changes in the regulatory environment it consists of three parts part one addresses a variety of theoretical approaches as well as the dynamics and criticism of corporate social responsibility it takes into account social and governmental expectations for the new and extended role of companies in the economy and in society and provides a new context and theoretical assumptions regarding the functions and tasks of corporate social responsibility part two discusses the practical aspects relating to strategic management and corporate governance corporate disclosure and reporting as well as the empowerment of stakeholders lastly part three focuses on the international practice of corporate social responsibility in various organizational and institutional settings using numerous case studies the book explores the challenges and tasks of csr in emerging markets in the fashion industry and in global and family companies it identifies the changes that can be detected following the financial crisis closing the loop and linking the empirical findings with the revised theoretical framework

this second edition of the market leading financial accounting text provides new zealand undergraduates with a thorough and comprehensive grounding in all aspects of financial accounting it aims to not only give undergraduates a firm grasp of the

principles and application of financial accounting requirements but through the evaluation of rules and guidelines to develop students critical thinking and evaluation abilities a prerequisite to success in an accounting career
